

סוכה כח

A person should not sleep in a בית מדרש.

A person should be careful not to speak שיחת חולין in a בית מדרש.

A person should not speak, or even think of דברי תורה in a מקום מטונף (near a garbage dump, or refuse).

The פסח סדר should be started as soon as possible in order to keep the children awake and interested, and we even leave the בית מדרש early in order to start the סדר on time.

During the seven days of סוכות, a person makes his house a דירת אראי, and his סוכה a דירת קבע. The ערוך השלחן writes, for example, that a person who has to speak with his friend on סוכות, should do so inside the סוכה.

A person should endeavor to learn in the סוכה, unless he will not learn as well as he would in the house.
