

During the seven days before יום כיפור, the כהן גדול would do מקטיר אברי תמיד and be מטיב את הנרות, מקטיר קטורת, זריקת הדם on the מזבח every day to prepare himself.

The כהן גדול could be מקריב anytime he wanted to during the year, as he has first right to offer, and first right to take.

זריקת הדם is done by throwing blood on the Northeast and Southwest corners of the מזבח.
